

Program-O

About

Program-O, GPL

Website: <http://www.program-o.com>

Definition

Program O is an AIML interpreter written in PHP, and uses a MySQL database to store chatbot information, including the AIML files used to formulate the chatbot's responses.

- One click installation.
- Fully loaded admin area to admin your chatbot.
- Set up multiple chatbots.
- Foreign language support.
- XML/JSON responses or just plain HTML.
- Massive community of users.
- Twitter Plugins and lots and lots more.

Get started

Install :

- [Readme](#)
- [Fresh installation](#)

For the moment, you need to use the Voximal branch with the gui/data. The VoiceXML script provided uses this gui to interact with the bot.

Configuration

Note : To use the chatbot integration, your Voximal needs to be configured with the SpeechToText and TextToSpeech resources.

Here an example of VoiceXML script :

[chatbot_program-o.vxml](#)

- Set the URL if your Program-O server,
- Set the botid (bot ID),
- Set the language (and change the prompts).
