## About

### Smartly.ai

156 2nd St, San Francisco, CA 94105

Website: <https://www.smartly.ai>

## Definition

Create, deploy and monitor cross device voice applications with Smartly AI. The intuitive SaaS platform has been designed to be used by all profiles, enabling all members of a project team to effectively collaborate to create a voice application. Smartly AI's unique framework means that users create a voice application once and then can seamlessly deploy it on any voice platform (Amazon Alexa, Google Home, Cortana...).
