## Connect to your AC2 Dashboard

A screenshot of the AWS console homepage in French. The header includes the AWS logo, navigation links like "Menu", "Mise en route", "Produits", "Solutions", and "Plus", and user options like "Français", "Mon compte", and "Créer votre compte". The main banner area has a green background with the text "Créez votre premier projet avec AWS en utilisant nos guides étape par étape." and a "Voir les projets" link. To the right, there's a box for "Gérez vos ressources" with a "Se connecter à la console" button and information about the "Application mobile AWS Console". Below the banner, there are four service tiles: "AMAZON API GATEWAY", "AMAZON ECS", "AWS KEY MANAGEMENT SERVICE", and "AMAZON SNOWBALL", each with a brief description and a "En savoir plus" link.

The image shows two screenshots of the AWS Management Console. The top screenshot displays the 'Amazon Web Services' page, which lists various services categorized into Compute, Storage & Content Delivery, Database, Developer Tools, Management Tools, Security & Identity, Internet of Things, Game Development, Mobile Services, and Application Services. The bottom screenshot shows the 'EC2 Dashboard' for the 'EU Central (Frankfurt)' region. It displays a list of resources including Running Instances, Elastic IPs, Snapshots, Volumes, Key Pairs, and Placement Groups. A 'Create Instance' button is visible, and a note indicates that instances will launch in the EU Central (Frankfurt) region. The 'Service Health' section shows that the EU Central (Frankfurt) service is operating normally.
