

Active a Voxibot Amazon AWS image

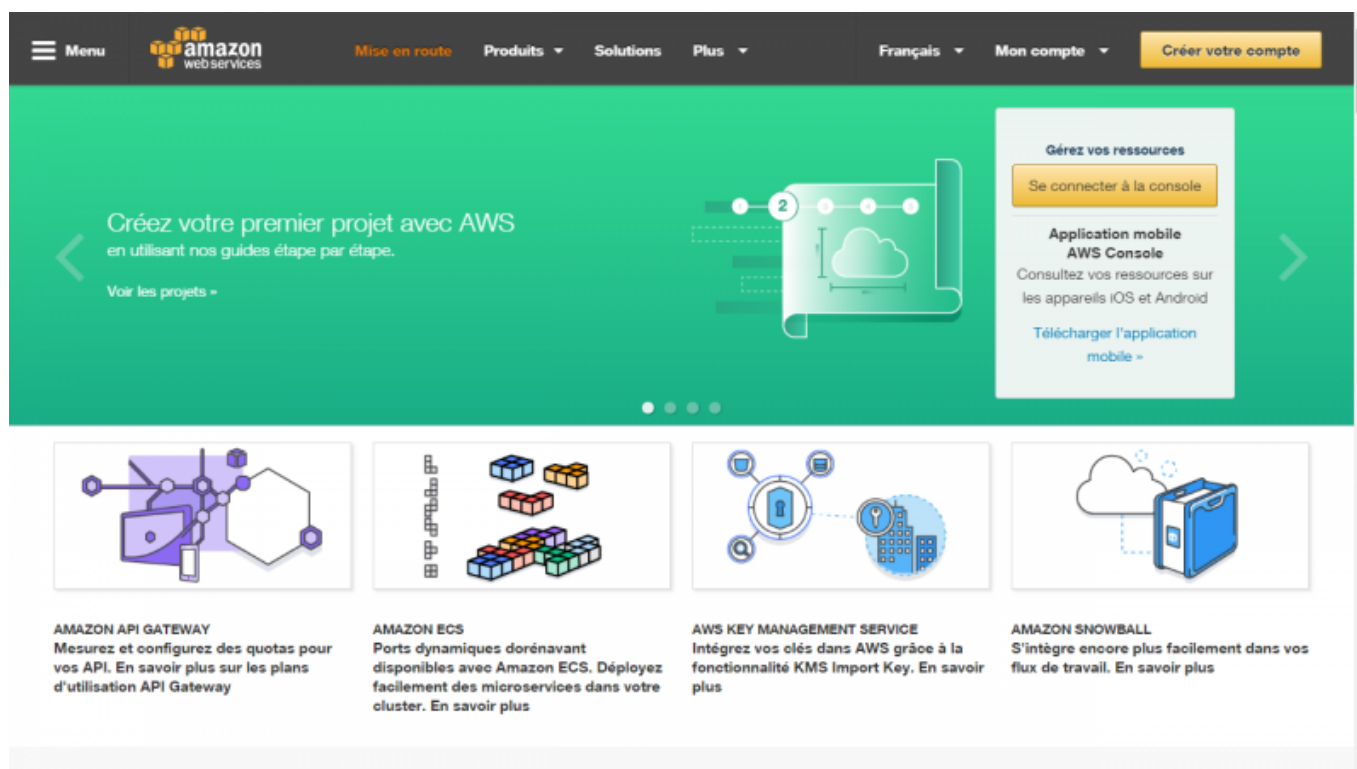

- **Web site** : <https://aws.amazon.com/>

Amazon Web Services (AWS) is a secure cloud services platform, offering compute power, database storage, content delivery and other functionality to help businesses scale and grow. Explore how millions of customers are currently leveraging AWS cloud products and solutions to build sophisticated applications with increased flexibility, scalability and reliability.

More information : [Getting started with AWS](#)

Connect to your AC2 Dashboard

The screenshot shows the AWS Services page with a navigation bar at the top containing 'AWS', 'Services', 'Edit', 'Ulex Innovative Systems', 'Oregon', and 'Support'. The main content is organized into several columns of service categories:

- Compute:** EC2 (Virtual Servers in the Cloud), EC2 Container Service (Run and Manage Docker Containers), Elastic Beanstalk (Run and Manage Web Apps), Lambda (Run Code without Thinking about Servers), Server Migration (Migrate on-premises servers to AWS).
- Storage & Content Delivery:** S3 (Scalable Storage in the Cloud), CloudFront (Global Content Delivery Network), Elastic File System (Fully Managed File System for EC2), Glacier (Archive Storage in the Cloud), Snowball (Large Scale Data Transport), Storage Gateway (Hybrid Storage Integration).
- Database:** RDS (Managed Relational Database Service), DynamoDB (Managed NoSQL Database), ElastiCache (In-Memory Cache), Redshift (Fast, Simple, Cost-Effective Data Warehousing).
- Developer Tools:** CodeCommit (Store Code in Private Git Repositories), CodeDeploy (Automate Code Deployments), CodePipeline (Release Software using Continuous Delivery).
- Management Tools:** CloudWatch (Monitor Resources and Applications), CloudFormation (Create and Manage Resources with Templates), CloudTrail (Track User Activity and API Usage), Config (Track Resource Inventory and Changes), OpsWorks (Automate Operations with Chef), Service Catalog (Create and Use Standardized Products), Trusted Advisor (Optimize Performance and Security).
- Security & Identity:** Identity & Access Management (Manage User Access and Encryption Keys), Directory Service (Host and Manage Active Directory), Inspector (Analyze Application Security), WAF (Filter Malicious Web Traffic), Certificate Manager (Provision, Manage, and Deploy SSL/TLS).
- Internet of Things:** AWS IoT (Connect Devices to the Cloud).
- Game Development:** GameLift (Deploy and Scale Session-based Multiplayer Games).
- Mobile Services:** Mobile Hub (Build, Test, and Monitor Mobile Apps), Cognito (User Identity and App Data Synchronization), Device Farm (Test Android, iOS, and Web Apps on Real Devices in the Cloud), Mobile Analytics (Collect, View and Export App Analytics), SNS (Push Notification Service).
- Application Services:** API Gateway (Build, Deploy and Manage APIs), AppStream (Low Latency Application Streaming), CloudSearch (Managed Search Service), Elastic Transcoder (Easy-to-Use Scalable Media Transcoding), SES (Email Sending and Receiving Service), SQS (Message Queue Service).

On the right side, there are sections for 'Resource Groups' (with 'Create a Group' and 'Tag Editor' buttons), 'Additional Resources' (with links to documentation and mobile apps), and 'Service Health' (showing 'All services operating normally' as of Nov 07 2016 12:04:00 GMT+0100).

The screenshot shows the 'Resources' page in the AWS Management Console for the 'EU Central (Frankfurt)' region. The left sidebar contains a navigation menu with categories like 'EC2 Dashboard', 'INSTANCES', 'IMAGES', 'ELASTIC BLOCK STORE', 'NETWORK & SECURITY', 'LOAD BALANCING', 'AUTO SCALING', and 'COMMANDS'. The main content area displays:

- Resources:** A summary of EC2 resources in the region: 0 Running Instances, 0 Elastic IPs, 0 Dedicated Hosts, 0 Snapshots, 0 Volumes, 0 Load Balancers, 1 Key Pairs, 2 Security Groups, and 0 Placement Groups.
- Create Instance:** A section with a 'Launch Instance' button and instructions: 'To start using Amazon EC2 you will want to launch a virtual server, known as an Amazon EC2 instance.' A note states: 'Your instances will launch in the EU Central (Frankfurt) region.'
- Service Health:** A section showing the status of EC2 services. Under 'Service Status', 'EU Central (Frankfurt)' is 'operating normally'. Under 'Availability Zone Status', both 'eu-central-1a' and 'eu-central-1b' are 'operating normally'. A link to the 'Service Health Dashboard' is provided.
- Scheduled Events:** A section showing 'No events' for the region.
- Account Attributes:** A sidebar on the right showing 'Supported Platforms' (VPC), 'Default VPC' (vpc-1affe773), 'Resource ID length management', and 'Additional Information' (Getting Started Guide, Documentation, All EC2 Resources, Forums, Pricing, Contact Us).

The footer contains 'Feedback', 'English', and copyright information: '© 2009 - 2016, Amazon Web Services, Inc. or its affiliates. All rights reserved. Privacy Policy Terms of Use'.

Launch a new instance

The screenshot shows the AWS Management Console interface for selecting an Amazon Machine Image (AMI). The main heading is "Step 1: Choose an Amazon Machine Image (AMI)". Below the heading, there is a search bar with the text "voxibot" and a "Select" button. The search results show a single AMI: "Voxibot 1.0.117 latest - ami-95d497e6". The AMI details include "Voxibot V1.0.117 latest for Amazon Linux", "Root device type: ebs", and "Virtualization type: hvm". The page also features a sidebar with "Operating system" filters and a top navigation bar with "AWS", "Services", and "Edit" menus.

Test your installation

You have two simple ways to test and validate your installation :

- With a soft phone : [Soft Phone connection](#)
- With the test numbers : [Call the test service](#)
