FreePBX

site : www.freepbx.org

The FreePBX EcoSystem is the most widely deployed Open Source PBX platform in use across the world today. The openness of the project allows to build robust communications solutions that are powerful but at the same time easy to implement and support. As web-based PBX solution, FreePBX is easy to customize and adapt to your changing needs. It can run in the cloud or on-site, and is currently being used to manage the business communications of all sizes and types of businesses.
