

Install the Raspberry with a MicroSD

1. Option with Raspbian version

First download the image disk to flash it in your MicroSD.

Follow those instruction : [Flash Image \(from raspberrypi.org\)](https://www.raspberrypi.org/documentation/hardware/raspberrypi/software/flash_image.md)

Use the “lite” image in order to not install the graphical interface.

Insert the flashed MicroSD and switch on your Raspberry.

The default login acces is :

- user : pi
- password : raspberry

If you want to connect you raspberry with Wifi, please follow those steps : [Configure Wifi \(from raspberrypi.org\)](https://www.raspberrypi.org/documentation/hardware/raspberrypi/wifi.md)

Once you have install the OS, connect as root a proceed a standard installation with the package :

Voxibot : [lastest Voxibot for raspbian8 packages](#)

It is a runnable script that process to the installation of :

- Apache
- PHP
- Mysql
- Asterisk V11
- FreePBX V12
- Voximal V14
- picoTTS (en,fr,es,it)
