Soft Phone connection

Set up a software telephone so that you can play with Voximal. We recommend Zoiper or YateClient which are free. Download them from :
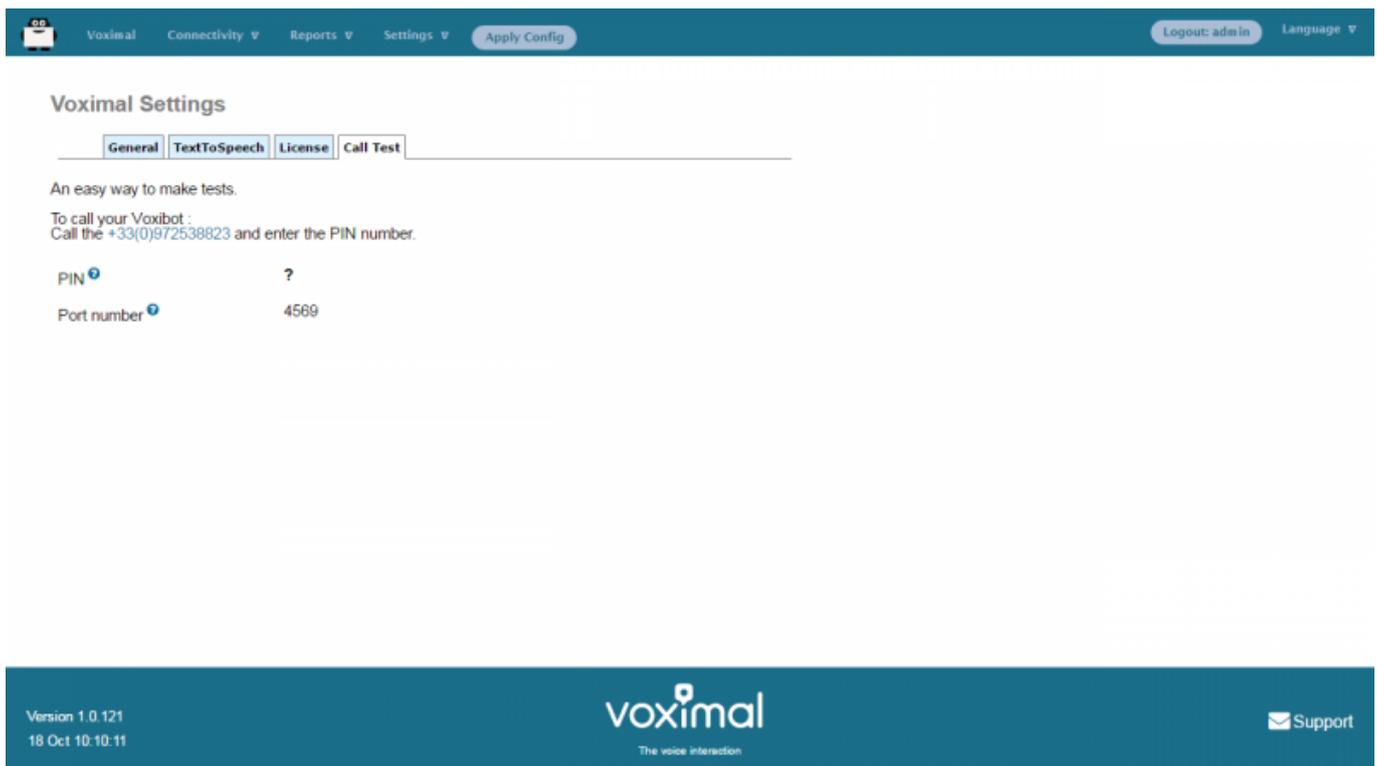

- IaxLite (old windows application)
- Zoiper (freeware with commercial offer)
- YateClient (opensource freeware)

Zoiper

- Run Zoiper once you've installed it and enter the credentials for the account on your Voximal.
  You'll need the IP address of your server and your extension 'user' password.

- Choose Settings → Accounts and click the **[Create Account]** button.
- Select IAX.
- Fill in the blanks using the IP address of your server, 'user' for your account name, and
  whatever password got from your Voximal installation server.

YateClient

- Run YateClient once you've installed it and enter the credentials for the 'user' extension on Voximal. You'll need the IP address of your server plus your extension user password.

- Choose Settings → Accounts and click the **[New]** button.
- Fill in the blanks using the IP address of your server, 'user' for your account name, and whatever password got from your Voximal installation server.
