

Call the test service

You can test your Voximal installation by calling the test numbers from any phone.

We setup 2 phone numbers :

- France : +33(0)9 72 53 88 23
- Unites States : +1-202-600-4534

You need to open the port 4569 from/to the internet. The calls will be transfered by this way to your Voximal server to the number/extension :

- **8965** ('VXML' from your phone dialpad).

By default, the Voximal installation configures the 'helloworld' service/account that executes this VoiceXML document :

- [helloworld.vxml](#)

When you call the voice portal, the service will request your PIN number.

Get your password from the Web Interface

Select Setting → Voximal Setting → Test

Get your password from the Asterisk console

Execute :

```
raspbx*CLI> voximal show license
Version      : V14.0
Build
  CVS Revision : $Revision: 1.853 $
  Gcc          : V4.9
  Arch        : 32 bits
  Target      : i686
  Asterisk    : V13.11.2
  Options sum :
  Date        : Nov  3 2016 21:40:06
Code         : b6de76bcb827eb415eb3b6f75b1001
UID          : cb773b52-a362-11e6-af57-b827eb415eb3
PIN          : 3152
