

Call the test service

You can test your Voximal installation by calling the test numbers from any phone.

We setup 2 phone numbers :

- France : +33(0)9 72 53 88 23
- Unites States : +1-202-600-4534

You need to open the port 4569 from/to the internet. The calls will be transfered by this way to your Voximal server to the number/extension :

- **8965** ('VXML' from your phone dialpad).

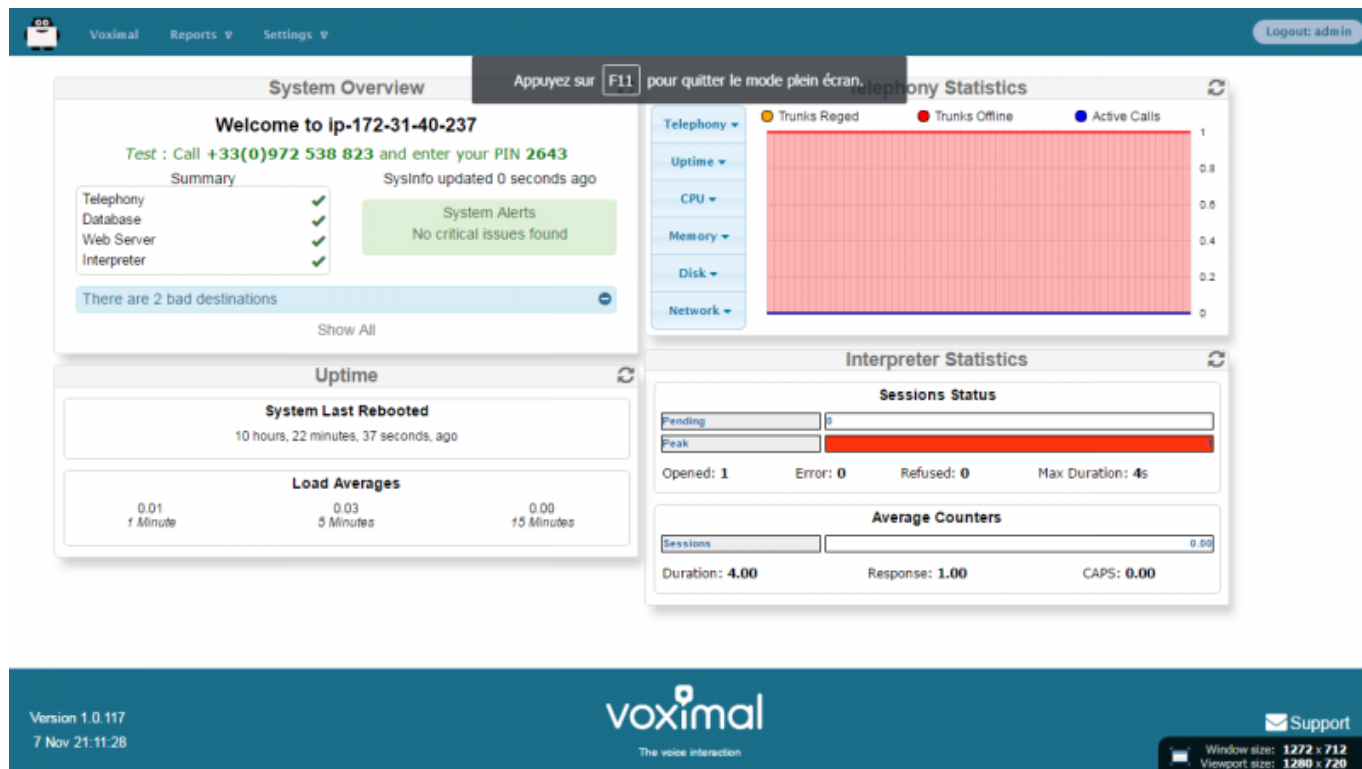

By default, the Voximal installation configures the 'helloworld' service/account that executes this VoiceXML document :

- [helloworld.vxml](#)

When you call the voice portal, the service will request your PIN number.

Get your PIN from the Web Interface

With the Voxibot solutio, the PIN number is in the main panel :

Select Setting → Voximal Setting → Test

Voximal Settings

General TextToSpeech License Call Test

An easy way to make tests.
To call your Voxibot :
Call the +33(0)972538823 and enter the PIN number.

PIN ?
Port number 4569
