

# Call the test service

You can test your Voximal installation by calling the test numbers from any phone.

We setup 2 phone numbers :

- France : +33(0)9 72 53 88 23

You need to open the port 4569 from/to the internet. The calls will be transfered by this way to your Voximal server to the number/extension :

- **8965** ('VXML' from your phone dialpad).

By default, the Voximal installation configures the 'helloworld' service/account that executes this VoiceXML document :

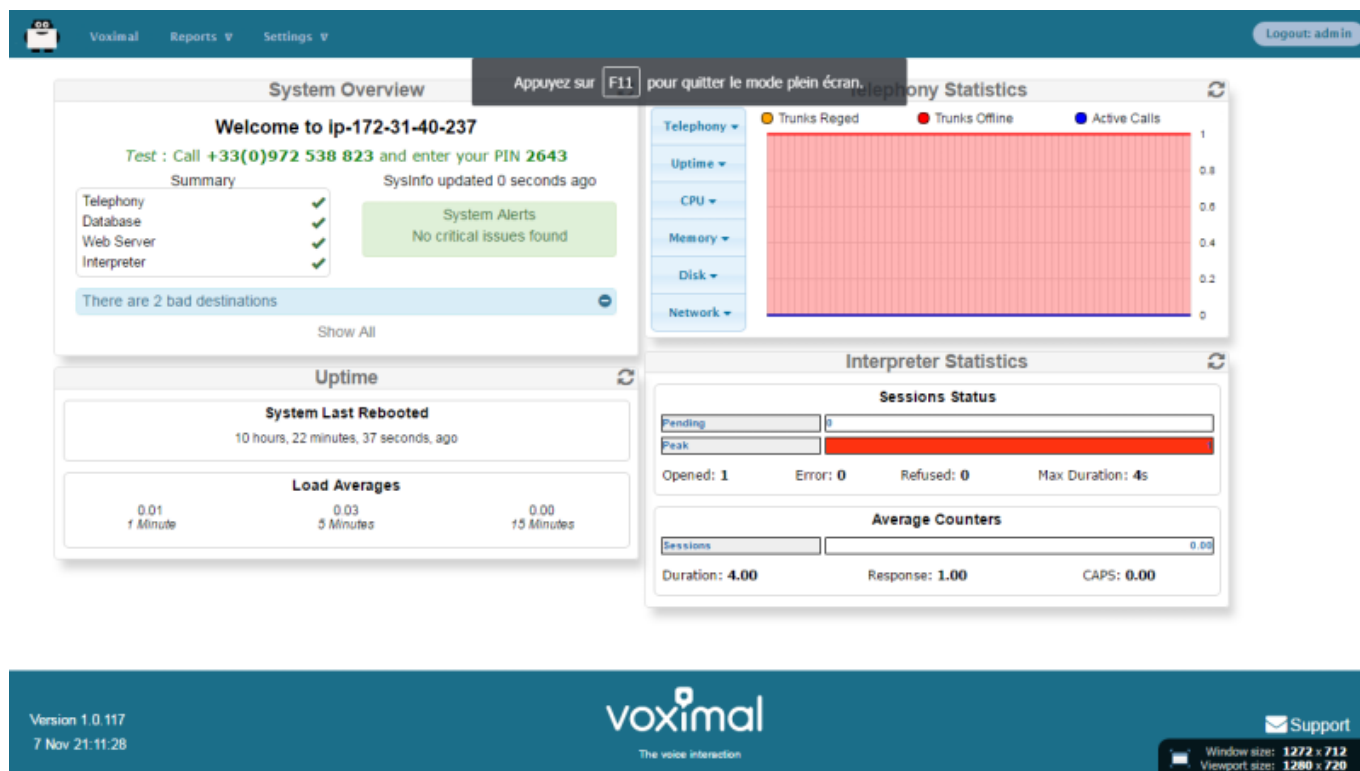

- [helloworld.vxml](#)

When you call the voice portal, the service will request your PIN number.

## Get your PIN from the Web Interface

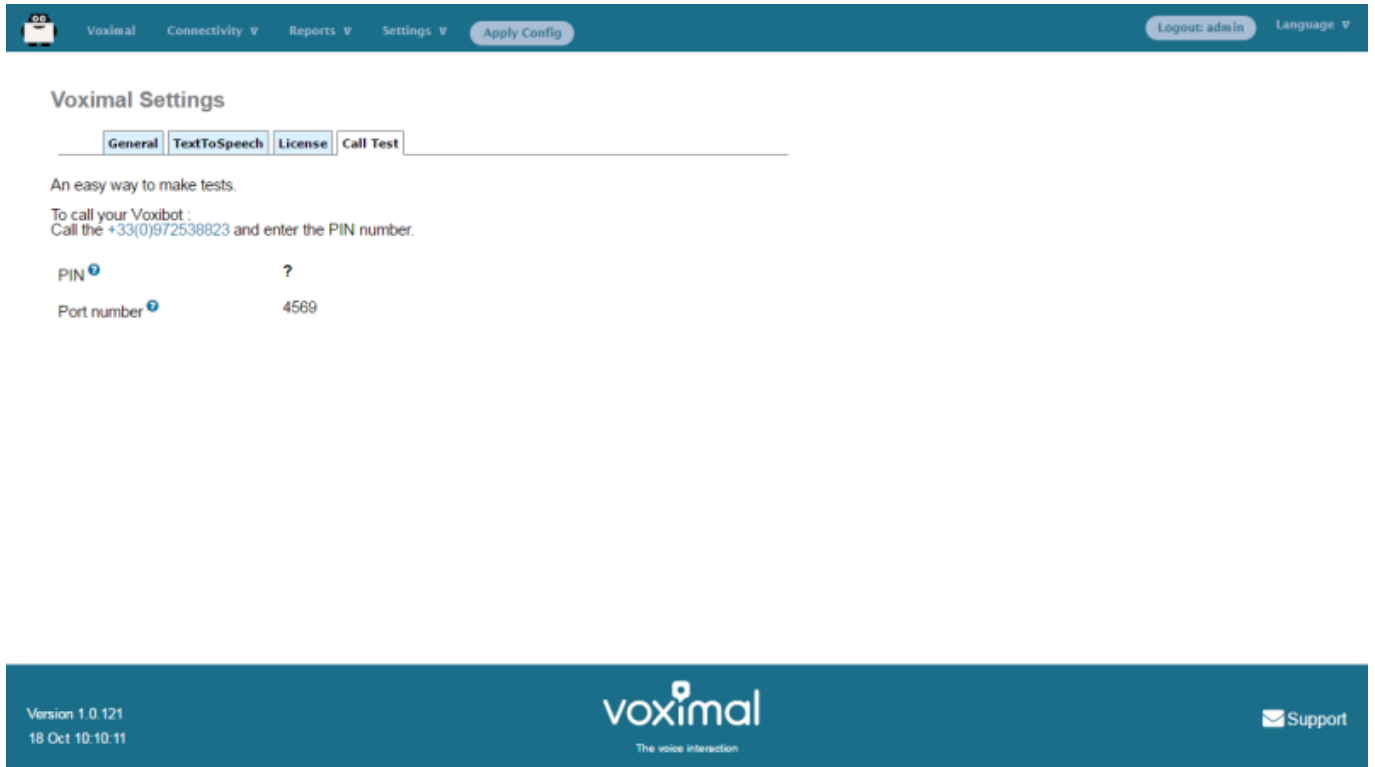

With the Voxibot suite, the PIN number is prompted the main panel :

**Test : Call +33(0)972 538 823 and enter your PIN XXXX**

With standard FreePBX distribution :

- Select Setting → Voximal Setting → Test

## Get your PIN from the Asterisk console

Execute :

```
raspbx*CLI> voximal show license
Version      : V14.0
Build
CVS Revision : $Revision: 1.853 $
Gcc          : V4.9
Arch         : 32 bits
Target       : i686
Asterisk     : V13.11.2
Options sum  :
Date         : Nov  3 2016 21:40:06
Code         : b6de76bcb827eb415eb3b6f75b1001
UID          : cb773b52-a362-11e6-af57-b827eb415eb3
PIN          : 3152
Password     : cb773b52
Key          :
Max sessions : 1
Options
TextToSpeech : Yes
Speech       : Yes
State        : ok
```

Your PIN is : **3152** (in this example)
