Elastix

- **Web site** : http://www.elastix.org/
- **Contact support** : [Elastix support](#)

Elastix is an Open Source Software to establish Unified Communications. About this concept, Elastix goal is to incorporate all the communication alternatives, available at an enterprise level, into a unique solution.

Elastix Installation

Here the full Elastix documentation to success your installation : [Elsatix documentation](#)

VoiceXML Module installation

The VoiceXML Browser package install automaticaly the Elastix module (Reports / VoiceXML Logs).

To install the FreePBX module, you need to finish the installation manualy.

To access FreePBX in Elastix you have to enable Direct access from Security >Advance Setting.

Enable direct access (Non-embedded) to FreePBX : ON

Open the Browser, access URL https://your_pbx_ip_address/admin

After follow the Installation steps details in the FreePBX installation section.

VoiceXML Module

VoiceXML (Internal Options & Configuration)

VoiceXML (Inbound Call Control)
