

# History

Voximal was created in 2003 by Borja SIXTO (an OpenVXI V3.4 integration with the Asterisk PBX). It had been proposed by the i6net spanish company under the VXI\* name (VoiceXML Interpreter for Asterisk). The VXi\* software is now called Voximal (VoXiMaL) since 2016. Voximal® is a mark deposited to the INPI. The Ulex Innovative Systems french company is the owner of the Voximal rights of this product.
