

Call the test service

You can test your Voximal installation by calling the test numbers from any phone.

We setup 2 phone numbers :

- France : +33(0)9 72 53 88 23
- Unites States : +1-202-600-4534

You need to open the port 4569 from/to the internet. The calls will be transfered by this way to your Voximal server to the number/extension :

- **8965** ('VXML' from your phone dialpad).

By default, the Voximal installation configures the 'helloworld' service/account that executes this VoiceXML document :

- [helloworld.vxml](#)

When you call the voice portal, the service will request your PIN number.

Get your PIN from the Web Interface

Select Setting → Voximal Setting → Test

The screenshot displays the Voximal web interface. At the top, a navigation bar includes links for 'Voximal', 'Connectivity', 'Reports', 'Settings', and an 'Apply Config' button. The 'Settings' menu is expanded, showing 'General', 'TextToSpeech', 'License', and 'Call Test'. The 'Call Test' tab is active, displaying instructions: 'An easy way to make tests. To call your Voxibot : Call the +33(0)972538823 and enter the PIN number.' Below this, there are input fields for 'PIN' (with a question mark) and 'Port number' (set to 4569). The footer of the interface shows 'Version 1.0.121', '18 Oct 10:10:11', the 'voximal' logo with the tagline 'The voice interaction', and a 'Support' link.
