

Call the test service

You can test your Voximal installation by calling the test numbers from any phone.

We setup 2 phone numbers :

- France : +33(0)9 72 53 88 23
- Unites States : +1-202-600-4534

You need to open the port 4569 from/to the internet. The calls will be transfered by this way to your Voximal server to the number/extension :

- **8965** ('VXML' from your phone dialpad).

By default, the Voximal installation configures the 'helloworld' service/account that executes this VoiceXML document :

- [helloworld.vxml](#)

When you call the voice portal, the service will request your PIN number.

Get your PIN from the Web Interface

Select Setting → Voximal Setting → Test

The screenshot shows the Voximal web interface. The top navigation bar includes links for Voximal, Connectivity, Reports, Settings, and an Apply Config button. The user is logged in as 'admin'. The main content area is titled 'Voximal Settings' and has four tabs: General, TextToSpeech, License, and Call Test. The 'Call Test' tab is selected. Below the tabs, there is a message: 'An easy way to make tests. To call your Voxibot : Call the +33(0)972538823 and enter the PIN number.' There are two input fields: 'PIN' with a question mark and 'Port number' with the value '4569'. The footer of the interface shows the version '1.0.121', the date '18 Oct 10:10:11', the Voximal logo with the tagline 'The voice interaction', and a 'Support' link.
