

# DIDx Incoming calls

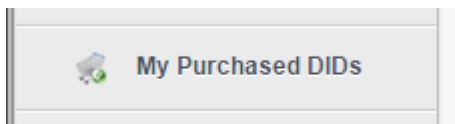

- **Web site** : <https://www.didx.net/>

DID Exchange is a VOIP-based wholesale DID Phone Number marketplace which can and is used by Mobile Operators, LECs, CIECs, IXC's or other telecommunications service providers who offer or use any kind of PHONE NUMBERS in there network.

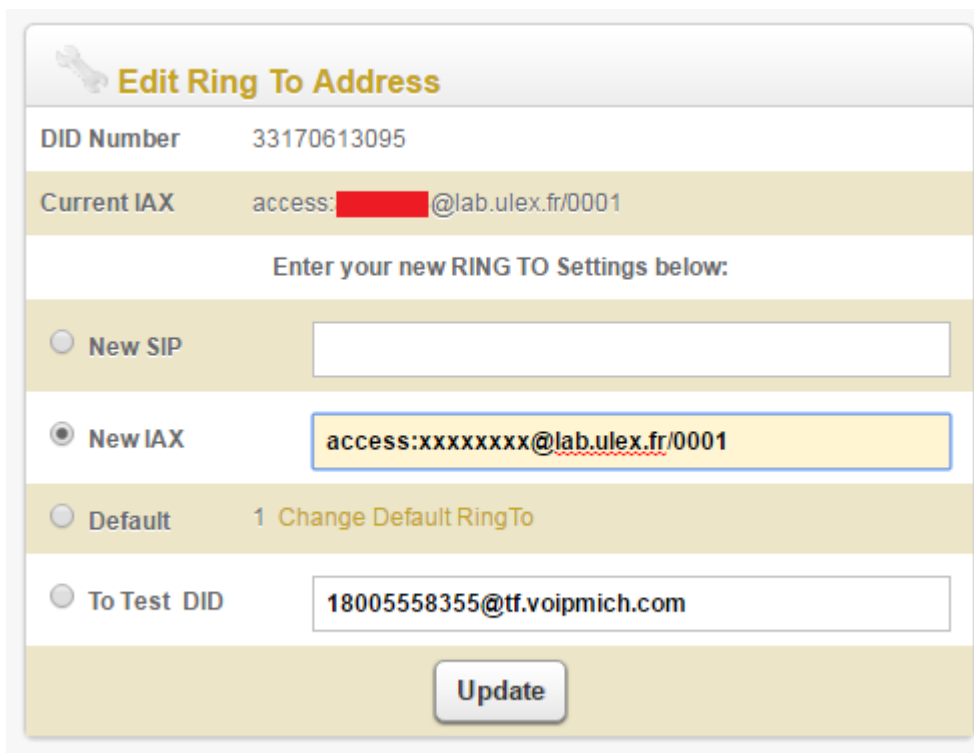

DIDx offers only inbound call services for DID's. You have a mounthly fee (some dollars), and a volume of minutes, if you overlap this you pay the call durations.

- **Configuration** :

By default the Voxibot installer create an account to receive external incoming calls. You need to get the password of the instance (voximal show licence). In the DIDx interface after purchased a DID number go to the configuration panel and set :

Change the RingTo :

A screenshot of the "Edit Ring To Address" form. The form has a title bar with a wrench icon and the text "Edit Ring To Address". Below the title bar, there are several fields: "DID Number" with the value "33170613095", "Current IAX" with the value "access:[redacted]@lab.ulex.fr/0001", and a section titled "Enter your new RING TO Settings below:". This section contains four radio buttons: "New SIP" (unselected), "New IAX" (selected), "Default" (unselected), and "To Test DID" (unselected). The "New IAX" option has a text input field with the value "access:xxxxxxxx@lab.ulex.fr/0001". The "Default" option has a link "1 Change Default RingTo". The "To Test DID" option has a text input field with the value "18005558355@tf.voipmich.com". At the bottom of the form is an "Update" button.

New IAX : access:[your access password]@[your server IP]/[your DID to refere in the Voximal account]
